

saturated and unsaturated solutions pdf

Add different salts to water, then watch them dissolve and achieve a dynamic equilibrium with solid precipitate. Compare the number of ions in solution for highly soluble NaCl to other slightly soluble salts. Relate the charges on ions to the number of ions in the formula of a salt. Calculate K_{sp} values.

Salts & Solubility - Solubility | Salt | Solutions - PhET

The change in solubility with change in temperature can be used to create solutions with more solute dissolved than is predicted by the solubility of the substance.

Supersaturation

Monounsaturated fat is a type of dietary fat. It is one of the healthy fats, along with polyunsaturated fat. Monounsaturated fats are liquid at room temperature, but start to harden when chilled.
